

## Worksheet\_set\_4

### Only Answer

- 1) B
- 2) A
- 3) B, At compile time
- 4) A ,0;
- 5) A ,Dot operator
- 6) d All data types can be included
- 7) A private data
- 8) B 0;
- 9) A, only 1,2,3
- 10) Derived :: show() called , here method override the show () of parents class
- 11) we cant override the final method so here it's show compile time error
- 12)
- 13) Test class Derived class
- 14) Test class Name;
- 15) Adding to 100,x=104  
Adding to 0,y=3 3 3
- 16) this will show compile time error bez both are int there must be one float value
- 17) it will show compile time error because int not take null;
- 18) 0 ,0;
- 19) Constructor called 10, Constructor called 5;
- 20) 7;
- 21) 2;
- 22) 2;
- 23)
- 24) 1 2
- 25) obj1.a = 4 obj1.b = 3  
obj2.a = 4 obj1.b = 3
